AMENDMENTS TO THE CLAIMS

(Currently amended) A method of facilitating trading, comprising:

operating an integrated computer system forming a platform on which multiple processes

are executing;

executing, during an overlapping time interval on the same platform a computer, at least

two market processes having respective market methodologies, wherein the at least two market

 $\underline{processes} \ \underline{are} \ \underline{computer} \ \underline{software} \ \underline{processes} \ \underline{executing} \ \underline{on} \ \underline{the} \ \underline{same} \ \underline{computer}, \underline{and} \ \underline{wherein} \ \underline{each} \ \underline{of}$ 

the market processes provides a distinct and separate market at which trades can be executed that

 $\underline{is} \ configured \ to \ match \ and \ execute \ orders \ received \ from \ buying \ and \ selling \ trading \ processes,$ 

and

automatically enabling at least two trading processes a buying trading process and a

selling trading process to trade with each other at the markets provided by via the market

processes according to the respective market methodologies, wherein the buying and selling

trading processes are computer software processes that are executing on the same platform

computer as the market processes.

2. (Withdrawn) The method of claim 1, wherein each market methodology is

defined by setting parameters independently of the parameters set for other market processes.

3. (Withdrawn) The method of claim 1, wherein at least one of the market

methodologies is different from another of the market methodologies.

4. (Withdrawn) The method of claim 1, wherein each trading process has a trading

methodology defined by setting parameters independently of the parameters set for other trading

processes.

LAW OFFICES OF CHRISTENSEN O'CONNOR JOHNSON KINDNESS\*\*LCC

1420 Fifth Avenue Suite 2800 Seattle, Washington 98101 206.682.8100

-2-

 (Withdrawn) The method of claim 1, wherein each trading process has a trading methodology, and at least one of the trading methodologies is different from another of the

trading methodologies.

6. (Withdrawn) The method of claim 1, wherein each of the market processes lacks

custom code from a user of the respective market process.

7. (Withdrawn) The method of claim 1, wherein at least one of the market processes

includes custom code from a user of the respective market process.

8. (Withdrawn) The method of claim 1, wherein each of the trading processes lacks

custom code from a user of the respective trading process.

9. (Withdrawn) The method of claim 1, wherein at least one of the trading processes

includes custom code from a user of the respective trading process.

10. (Withdrawn) The method of claim 1, wherein the market methodologies and the

trading methodologies each incorporate a respective decision table having at least two rules specifying at least one of a discovery strategy and an order handling strategy, each rule having at

least one condition and at least one action to be taken when the condition is satisfied.

11. (Withdrawn) The method of claim 10, wherein the market methodologies and the

trading methodologies each include automatically evaluating whether the at least one condition

for each of the rules is satisfied, and for each of the rules having a satisfied condition,

automatically configuring the respective process to act on the at least one action.

12. (Withdrawn) The method of claim 10, wherein the at least one condition is based

on order characteristics.

LAW OFFICES OF CHRISTENSEN O'CONNOR JOHNSON KINDNESS<sup>rleo</sup> 1420 Fifth Avenue

-3-

13. (Withdrawn) The method of claim 10, wherein the at least one condition is based

on market characteristics.

14. (Withdrawn) The method of claim 13, wherein the decision table includes a

holding tank for storing at least one order waiting for a market related event.

15. (Withdrawn) The method of claim 10, wherein the automatically evaluating

includes assigning a value to a parameter.

16. (Withdrawn) The method of claim 10, wherein the automatically evaluating

includes transferring to another rule.

17. (Withdrawn) The method of claim 10, wherein at least one of the rules also

specifies a time for acting on its at least one action.

18. (Withdrawn) The method of claim 10, wherein the at least one action in at least

one of the rules is a wait operation.

19. (Withdrawn) The method of claim 1, wherein each of the trading processes has a

respective order routing strategy for automatically routing orders from the respective trading

process to the at least two market processes.

20. (Withdrawn) The method of claim 19, wherein one of the orders from one of the

trading processes is routed to at least two of the market processes.

21. (Withdrawn) The method of claim 19, wherein the automatically routing is in

accordance with a relationship between the trading process and the market process.

22. (Withdrawn) The method of claim 21, wherein the relationship is represented by

-4-

a code defined between the trading process and the market process.

LAW OFFICES OF CHRISTENSEN O'CONNOR JOHNSON KINDNESS\*\*\*\*

LNSEN O'CONNOR JOHNSON KIND. 1420 Fifth Avenue Suite 2800 Seattle, Washington 98101 206.682.8100

25462AM3.DOC

23. (Withdrawn) The method of claim 19, wherein at least one of the market

processes represents an informal market.

24. (Withdrawn) The method of claim 19, wherein the automatically routing is based

on information internal to the trading processes.

25. (Withdrawn) The method of claim 19, wherein the automatically routing is based

on information obtained from processes external to the trading processes for deciding how to

automatically route.

26. (Withdrawn) The method of claim 25, wherein the external processes are

informational processes.

27. (Withdrawn) The method of claim 25, wherein the external processes are market

processes.

28. (Withdrawn) The method of claim 1, wherein at least one of the market processes

represents an informal market.

29. (Withdrawn) The method of claim 1, wherein each trading methodology includes

a price discovery methodology and an action methodology.

30. (Withdrawn) The method of claim 29, wherein the discovery strategy is selected

from at least two of (i) no external discovery, (ii) obtain posted prices, (iii) query the market

process, and (iv) query an information provider.

31. (Withdrawn) The method of claim 30, wherein the posted prices are from market

processes and are stored in a file accessible to all trading processes authorized by the market

processes.

LAW OFFICES OF CHRISTENSEN O'CONNOR JOHNSON KINDNESS\*\*LCC 1420 Fifth Avenue 32. (Withdrawn) The method of claim 30, wherein the discovery strategy includes

discovery from at least one informal market.

33. (Withdrawn-currently amended) The method of claim 1, further comprising

automatically operating at least one data provider process on the platform computer.

34. (Withdrawn) The method of claim 33, wherein the data provider process is for

responding to a query.

35. (Withdrawn) The method of claim 34, wherein the query is from one of the

trading processes.

36. (Withdrawn) The method of claim 33, wherein the data provider process is for

broadcasting information.

37. (Withdrawn) The method of claim 36, wherein the information is broadcast to

one of the market processes.

38. (Withdrawn) The method of claim 36, wherein the information is broadcast to

one of the trading processes.

39. (Withdrawn) The method of claim 38, wherein the data provider process checks

access permission of the trading process prior to broadcasting information to the trading process.

40. (Currently amended) The method of claim 1, further comprising automatically

maintaining a market process status file on the computer system forming the platform, wherein

the market process status file includes a status of each of the market processes.

41. (Previously presented) The method of claim 40, wherein the market process

-6-

status file is accessible to at least one of the market processes.

42. (Previously presented) The method of claim 40, wherein the market process

status file is accessible to at least one of the trading processes.

43. (Previously presented) The method of claim 42, further comprising checking an

access permission for a trading process before providing the trading process with access to the

market process status file.

44. (Previously presented) The method of claim 40, further comprising automatically

updating in the market process status file the status of at least one of the market processes that

has changed its operational mode.

45. (Previously presented) The method of claim 44, wherein the operational mode is

an in process mode in which the market process has priority over other market processes for

executing a trade.

46. (Previously presented) The method of claim 44, wherein the operational mode is

a fast symbol mode in which a trade is available for execution without regard to the status of the

trade as represented in a different market provided by another of the market processes.

47. (Withdrawn) The method of claim 1, further comprising automatically

maintaining a file including the status of orders represented at each of the market processes.

48. (Withdrawn) The method of claim 47, wherein the order status file is accessible

to the market processes.

49. (Withdrawn) The method of claim 47, wherein the order status file is accessible

to the trading processes.

50. (Withdrawn) The method of claim 49, further comprising checking access

permission for each of the trading processes before providing access to the order status file.

LAW OFFICES OF CHRISTENSEN OCONNOR JOHNSON KINDNESS\*\*\*\* 1420 Fifth Avenue Suite 2800 Seattle, Washington 98101 206.682.8100

-7-

 (Withdrawn) The method of claim 47, wherein the order status file indicates which of the market and trading processes has control over the order.

52. (Withdrawn) The method of claim 47, wherein the order status file indicates

when an order is represented in multiple markets.

53. (Withdrawn) The method of claim 1, wherein an order from one of the trading

processes is represented in each of the least two market processes, and further comprising

automatically ensuring the order is executable in at most one of the first and second market

processes.

54. (Withdrawn) The method of claim 53, wherein each of the at least two market

processes operates according to a two phase action protocol, and the automatically ensuring

includes obtaining permission to act from a controlling process.

55. (Withdrawn) The method of claim 54, wherein the permission is an affirmation to

act upon a specified number of shares of the order.

56. (Withdrawn) The method of claim 54, wherein the controlling process is a

trading process.

57. (Withdrawn) The method of claim 54, wherein the controlling process is a market

process.

58. (Withdrawn) The method of claim 53, wherein one of the market processes is in

fast symbol mode, and the automatically ensuring includes canceling the order from the fast

symbol market process before executing in another of the market processes.

59. (Withdrawn) The method of claim 53, wherein the automatically ensuring

-8-

includes determining whether the order is in process at another market process.

LAW OFFICES OF CHRISTENSEN O'CONNOR JOHNSON KINDNESS<sup>PLCC</sup> 1420 Fifth Avenue Suite 2800

> Seattle, Washington 98101 206.682.8100

60. (Withdrawn) The method of claim 59, wherein the order includes an order tail

indicating the market processes in which it is represented.

61. (Withdrawn) The method of claim 53, wherein a platform process maintains a

market file indicating the market processes in which an order is represented, and wherein the

automatically ensuring includes checking the market file.

62. (Withdrawn) The method of claim 1, wherein one of the market processes is

coupled to an external market, and further comprising:

automatically receiving an action from one the coupled market process and the external

market,

automatically transmitting the action to the other of the coupled market process and the

external market, and

when a response has not been received within a predetermined time, automatically

sending a zero action to the one of the coupled market process and the external market.

63. (Withdrawn) The method of claim 62, further comprising receiving a response

after the predetermined time and sending a negative acknowledgement to the other of the

coupled market process and the external market.

(Withdrawn) The method of claim 62, further comprising converting the received

action to a converted action, and wherein the automatically transmitting transmits the converted

action

65. (Withdrawn) The method of claim 64, wherein the received action is an execute

operation and the converted action is a cancel operation.

66. (Withdrawn) The method of claim 62, wherein the automatically receiving and

transmitting are performed by a platform process.

Seattle, Washington 98101 206.682.8100 67. (Withdrawn) The method of claim 1, further comprising:

automatically receiving a timer request for a short term option expiration from one of the

market processes, and

automatically setting a timer to indicate the short term option expiration time.

68. (Withdrawn) The method of claim 67, further comprising resetting the timer to

ensure that the short term option remains valid.

69. (Withdrawn) The method of claim 67, further comprising sending a short term

option expiration notice to the market process associated with the timer request.

70. (Withdrawn) The method of claim 67, wherein the timer request also includes

identification of one of the trading processes, and further comprising sending a short term option

expiration notice to the identified trading process.

71. (Withdrawn) The method of claim 67, further comprising creating a short term

option manager process in response to the timer request.

72. (Withdrawn) The method of claim 67, wherein the automatically receiving and

setting are performed by a platform process.

(Withdrawn) The method of claim 1, further comprising:

automatically receiving a list of orders, each order including an item and associated price

and associated quantity,

automatically determining whether all of the orders on the list are executable at the

respective prices, and

automatically deciding whether to execute all of the orders on the list based on the

determination.

LAW OFFICES OF CHRISTENSEN O'CONNOR JOHNSON KINDNESSPLEC 1420 Fifth Avenue

-10-

(Withdrawn) The method of claim 73, wherein the list is associated with an
objective function.

,

75. (Withdrawn) The method of claim 73, wherein at least one of the orders is a trial

order.

76. (Withdrawn) The method of claim 73, wherein the automatically determining

includes ensuring that there is an unexpired short term option associated with at least one order

in the list.

77. (Withdrawn) The method of claim 76, further comprising overriding the

expiration time of a short term option associated with at least one order in the list.

78. (Withdrawn) The method of claim 73, further comprising automatically

executing all of the orders on the list when the determination is positive.

79. (Withdrawn) The method of claim 78, wherein the automatically executing

includes notifying at least one of the market processes of a pairing.

80. (Withdrawn) The method of claim 78, further comprising automatically advising

the source of the list of orders that the orders on the list have been executed.

81. (Withdrawn) The method of claim 78, wherein one of the orders in the pairing is

obtained by exercising a previously granted short term option.

82. (Withdrawn) The method of claim 73, further comprising automatically advising

the source of the list of orders that the orders on the list were not executed when the

determination is negative.

LAW OFFICES OF CHRISTENSEN O'CONNOR JOHNSON KINDNESS<sup>PLAC</sup> 1420 Fifth Avenue

-11-

83. (Withdrawn) The method of claim 73, wherein the automatically receiving, determining and executing are performed by a platform process.

mining and executing are performed by a platform process

84. (Withdrawn) The method of claim 1, further comprising:

automatically capturing a trade between two of the trading processes, and

automatically updating a preference rating based on the trade.

85. (Withdrawn) The method of claim 84, wherein each pair of trading processes has

a preference rating.

86. (Withdrawn) The method of claim 85, wherein the preference rating is two-sided,

each of the sides corresponding to how one of the pair of trading processes rates the other of the

pair of trading processes.

87. (Withdrawn) The method of claim 84, wherein the preference rating is based on

at least one threshold.

88. (Withdrawn) The method of claim 87, wherein the at least one threshold is

supplied by at least one of the trading processes.

89. (Withdrawn) The method of claim 84, wherein the preference rating is also based

on information supplied by at least one of the trading processes.

90. (Withdrawn) The method of claim 89, wherein the information comprises a rule

for determining the preference rating during the automatic updating.

91. (Withdrawn) The method of claim 89, wherein the information comprises a

rating for the other of the trading processes.

LAW OFFICES OF CHRISTENSEN O'CONNOR JOHNSON KINDNESSPLEC 1420 Fifth Avenue

-12-

92. (Withdrawn) The method of claim 84, wherein one of the trading processes can

designate itself as anonymous.

93. (Withdrawn) The method of claim 84, wherein the preference rating is used in

determining whether to allow or prohibit a next trade between the trading processes.

94. (Withdrawn) The method of claim 84, wherein the preference rating is based on

comparing the trade price with a metric.

95. (Withdrawn) The method of claim 94, wherein the metric is a market price at a

time other than the time of the trade.

96. (Withdrawn) The method of claim 84, wherein the automatically updating occurs

after the trade.

97. (Withdrawn) The method of claim 84, wherein the automatically updating occurs

at a predetermined time.

98. (Withdrawn) The method of claim 84, wherein the automatically capturing and

updating are performed by one of the market processes.

99. (Withdrawn) The method of claim 84, wherein the automatically capturing is

performed by one of the market processes and the automatically updating is performed by a

platform process.

100-108. (Canceled)

109. (Currently amended) A system for facilitating trading, comprising:

at least one processing component in an integrated a single computer system forming a

platform on which multiple processes are executing, wherein the processing component is

LAW OFFICES OF

CHRISTENSEN O'CONNOR JOHNSON KINDNESS\*\*LC 1420 Fifth Avenue

-13- 1420 Fifth Avenue Suite 2800 Seattle, Washington 98101 206.682.8100 configured to execute, during an overlapping time interval on the same platform computer system, at least two market processes and at least two trading processes a buying trading process and a selling trading process, wherein each of the market processes having have respective market methodologies and providing provide distinct and separate markets at which trades can be executed that are configured to match and execute orders received from the buying and selling trading processes, wherein the at least two buying and selling trading processes are able to trade with each other at the markets provided by via the market processes accordance with the respective market methodologies, and wherein the at least two market processes and the buying and selling trading processes are executed each computer software processes executing

110. (Previously presented) The system of claim 109, wherein the processing component is further configured to automatically maintain a market processes status file that includes a status of each of the market processes.

on the same platform as the market processes single computer system.

- 111. (Previously presented) The system of claim 110, wherein the market process status file is accessible to at least one of the market processes.
- 112. (Previously presented) The system of claim 110, wherein the market process status file is accessible to at least one of the trading processes.
- 113. (Previously presented) The system of claim 112, wherein the processing component is further configured to check an access permission for a trading process before providing the trading process with access to the market process status file.
- 114. (Previously presented) The system of claim 110, wherein the processing component is further configured to automatically update in the market process status file the status of at least one of the market processes that has changed its operational mode.

115. (Previously presented) The system of claim 114, wherein the operational mode is

an in process mode in which the market process has priority over other market processes for

executing a trade.

116. (Previously presented) The system of claim 114, wherein the operational mode is

a fast symbol mode in which a trade is available for execution without regard to the status of the

trade as represented in a different market provided by another of the market processes.

117. (Currently amended) A computer-accessible medium having executable

instructions stored thereon for facilitating trading, wherein the instructions, when executed, cause

a computer to:

operate a platform on which multiple processes are executing;

execute, during an overlapping time interval-on the same platform, at least two market

processes having respective market methodologies, wherein each of the market processes

provides a distinct and separate market at which trades can be executed that is configured to

match and execute orders received from buying and selling trading processes, and

execute at least two trading processes a buying trading process and a selling trading

process, wherein the buying and selling trading processes are able to trade with each other at the

markets provided by via the market processes according to the respective market methodologies,

and wherein the  $\underline{buying\ and\ selling}$  trading processes execute on the same  $\underline{platform}\ \underline{computer}$  as

the market processes.

118. (Previously presented) The computer-accessible medium of claim 117, further

comprising executable instructions that, when executed, cause the computer to automatically

maintain a market process status file that includes a status of each of the market processes.

119. (Previously presented) The computer-accessible medium of claim 118, wherein

-15-

the market process status file is accessible to at least one of the market processes.

LAW OFFICES OF CHRISTENSEN O'CONNOR JOHNSON KINDNESS<sup>PLLC</sup> 1420 Fifth Avenue Suite 2800

Suite 2800 Seattle, Washington 98101 206.682.8100 120. (Previously presented) The computer-accessible medium of claim 118, wherein

the market process status file is accessible to at least one of the trading processes.

121. (Previously presented) The computer-accessible medium of claim 120, further

comprising executable instructions that, when executed, cause the computer to check an access

permission for a trading process before providing the trading process with access to the market

process status file.

122. (Previously presented) The computer-accessible medium of claim 118, further

comprising executable instructions that, when executed, cause the computer to automatically

update in the market process status file the status of at least one of the market processes that has

changed its operational mode.

123. (Previously presented) The computer-accessible medium of claim 122, wherein

the operational mode is an in process mode in which the market process has priority over other

market processes for executing a trade.

124. (Previously presented) The computer-accessible medium of claim 122, wherein

the operational mode is a fast symbol mode in which a trade is available for execution without

regard to the status of the trade as represented in a different market provided by another of the

market processes.
